THE ADVANCED MUSIC SYSTEM

RAINBIRD

"BEST MUSIC UTILITY .... FOR THE AMSTRAD" AMTIX

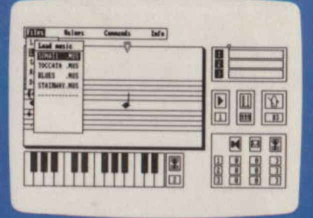

APPLICATION SOFTWARE

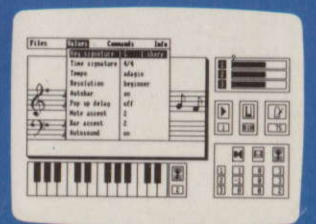

THE ADVANCED MUSIC SYSTEM

Five powerful and versatile modules that place at your fingertips the musicians equivalent of a word processor.

EDITOR

Compose, edit and rearrange your music with minimum effort using sophisticated commands and pop-up menus.

KEYBOARD

Use your Amstrad keyboard to enter and correct music with the cassette recorder style multi-tracking functions

SYNTHESISER

Custom-designed software which extends the range of the sound chip. Create and modify sounds with the sequencer which allows you to 'soundscape' and mix in real-time.

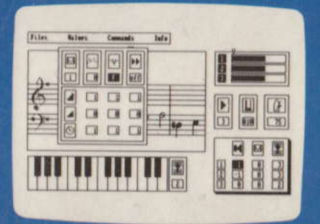

LINKER

Enables music files from the editor to be 'chained together' in any order to produce full length compositions.

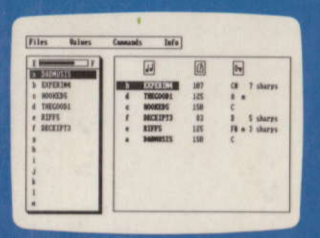

PRINTER

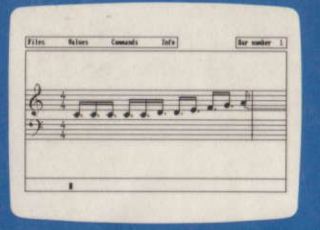

Print our individual music files or completed works with lyrics, to add to your portfolio.
